- Didn't say how!
- Opportunities!!!!!!

Professional Code of Conduct

- Launched in 1992 (revised 2004)
- Purpose is to inform the professions of the standards of professional conduct required of them in the exercise of their professional accountability and practice
- 8 standards

Professional Code of Conduct

- Standard Four (7 subsections)
- As a registered nurse, midwife or specialist community public health nurse, you must co-operate with others in the team.

Professional Code of Conduct

- Standard Six (5 subsections).
- As a registered nurse, midwife or specialist community public health nurse, you must maintain your professional knowledge and competence.

What Does This Mean?

- Differing institutions interpreted the way forward differently.
- Differing levels of ‘advanced roles.’
- Advanced roles still not concretely described by the UK nursing governing body.
- No transferability.

Back to the Drawing Board

“The challenge is how to free you from old professional turf wars, how to liberate you from the remnants of the old ways of thinking. The answer I think is to encourage a new generation of entrepreneurial nurses. Nurse prescribing sends a powerful message to the public and others that nursing is not subservient to medicine but an equal part of the healthcare team....
...let's have more nurses employing more doctors.”

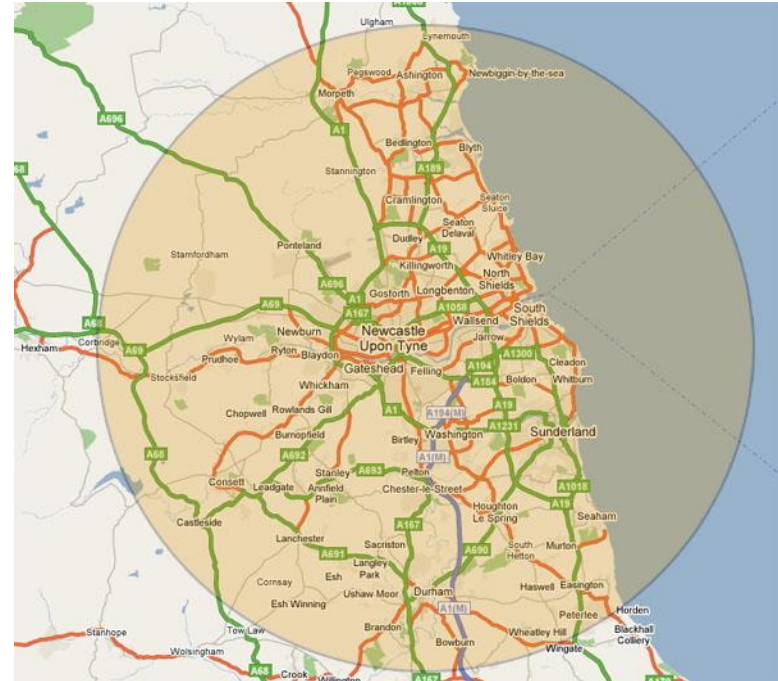

John Reid (then Health Secretary)
at Chief Nursing Officer's Conference Nov 2003
